Mr. Brandon Winget	:	
Millard County Road Department	:	43 CFR 3600 – Mineral Materials
1000 North 1000 West	:	
Delta, Utah 84624	:	

#### Mineral Materials Free Use Permit UTU-90915 Authorization

The Free Use Permit (FUP) for Mineral Materials from the Topaz Pit, assigned Bureau of Land Management (BLM) case file number UTU-90915, is approved. Your application requested 800,000 cubic yards (yd<sup>3</sup>) to be removed over 10 years. The previous BLM case file number for the Topaz Free Use Permit site was UTU-79851. That permit expired on May 18, 2014. The completed Form 5510-1, Free Use Application and Permit, is attached with the signature of the Authorized Officer (AO) of Fillmore Field Office (FFO). The permit is authorized with the signatures of both the BLM AO and a Millard County Roads representative.

Fillmore Field Office completed an Environmental Assessment (EA), EA-UT-W010-04-036, for the Topaz Pit on May 17, 2004. That EA was completed in conformance with the BLM's responsibility to meet the requirements of the National Environmental Policy Act (NEPA). Analysis by interdisciplinary specialists in support of the EA found no significant environmental impacts associated with the quarry and previously existing surface disturbances at the location. The environmental analyses from that EA will be applied to the new permit, UTU-90915, since no expansion of the surface disturbance area has been requested or authorized.

Under the Code of Federal Regulations (CFR) in 43 CFR § 3604.12, the BLM may issue Free Use Permits to government and non-profit entities, provided that the mineral materials are not used for industrial or commercial purposes. The BLM may issue FUPs for mineral materials to government entities for periods of no more than ten (10) years, as specified under 43 CFR § 3604.21(a)(1). Please note that under 43 CFR § 3604.22(a), you must not barter or sell mineral materials that you obtain from a FUP.

As part of a Free Use Permit agreement, you must submit annual production reports for mineral materials extraction under the permit. Annual production reports are required even if there is no production. Please submit an annual production report to the BLM Fillmore Field Office for every year that the pit is authorized. It may be most convenient to submit the report near the end of the Federal fiscal year on September 30<sup>th</sup>.

Please retain the copy of the FUP contract for your records. Your FUP authorization will expire ten (10) years from the authorization date.

If you have any questions, please contact Duane Bays, Fillmore Field Office (FFO) Natural Resource Specialist, at (435) 743-3115.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael D. Gates", followed by a stylized flourish.

Michael D. Gates  
Field Manager
